

## CONTENTS

**Special Issue:** Recent advances on Surface Protection of Steel – Relevant contributions at 2nd International Conference on Corrosion and Surface Protection for Steel (CASP 2022)

**Guest Editor:** Husnu Gerengi

### Editorial

- 2779 Foreword to the Special Issue  
*Husnu Gerengi*

### Original Articles

- 2781 Poly(*N*-vinyl carbazole)-TiO<sub>2</sub> composite coating for protection of steel  
*Berrin Duran and Eda Şimşek*
- 2795 A comparative analysis of the corrosion characteristics of electro-galvanized steel coated with epoxy zinc-free and zinc-rich coatings in 5% NaCl  
*Husnu Gerengi, Moses M. Solomon, Muhammed Maraslı and Beni B. Kohen*
- 2807 Corrosion behavior of HDA (hot-dip aluminized) carbon steel C45 half immersed in molten salts (NaCl, Na<sub>2</sub>SO<sub>4</sub>) isothermally at 973 K  
*Hawkar J. Muhammed, Dániel Koncz-Horváth and Tamás I. Török*
- 2828 Development of corrosion resistance of reinforcement steel bars with nano-silver coatings  
*İlker Bekir Topçu, Arda Uzunömeroğlu, Suat Pat and Tayfun Uygunoğlu*
- 2841 Real-time monitoring of residual strength in corroding steel reinforcement using ultrasonic-guided waves and multi-physics modelling  
*Shanmukha Shetty, Sauvik Banerjee, Siddharth Tallur and Yogesh M. Desai*
- 2861 Investigation of the economic and sustainability aspects of cathodic protection method for corrosion prevention in marine structures  
*Selçuk İz and Özgür S. Köylüoğlu*
- 2871 Comparison of 3%-Cr steel and carbon steel corrosion behavior as well tubing materials in CO<sub>2</sub>-H<sub>2</sub>S environment  
*Yudha Pratesa, Vika Rizkia, Nuringtyas Rahwinarni and Johny Wahyuadi Soedarsono*
- 2885 Corrosion protection on texturized steel moulds for polymeric products by sol-gel anti-adherent coatings  
*José I. Lozano, José I. Amor and Marcos Borro*
- 2896 Corrosion risk assessment in a ship unloader  
*Prishnee Queensy Upiah and B. Yashwansingh R. Surnam*
